### **Old School Fly Wallet, High-tech Materials**

Mastic Beach, NY February 1, 2008—Fat Cat Fly Fishing would like to announce an exciting new fly wallet developed for the practical fly fisher. This fly wallet is based on the functionality of the vintage leather/shearling wallets but made with the practicality of high-tech materials. The exterior is made of heavy-duty 1000 denier cordura with a urethane backing. The interior is made of faux sherpa ewe fleece with three velcro closures.

With the dimensions of 12" W x 10" H (closed: 12" W x 4" H) it is the largest fly wallet available. Its slim form-fitting design allows for easy storage in wader tops or in the more popular packs. Securely holds the smallest fly to the largest streamer including 12" flatwings. The materials repel water and are non-absorbent. In other words, it holds flies, not moisture. 100% corrosion-, mildew-proof and machine washable. Made in USA.
